FACT SHEET

FOOD FOR PEACE – FY 2011 PROGRAMS

In FY 2011, Food for Peace provided approximately 1.5 million metric tons of Title II food aid as part of programs valued at approximately \$1.7 billion in 48 countries.

In addition, Food for Peace provided \$232 million in grants in 21 countries for local and regional procurement of food commodities, food vouchers and cash transfers under the Emergency Food Security Program. This program is used primarily when U.S.-purchased Title II food aid cannot arrive fast enough to respond to an emergency or when local procurement, cash transfers or food voucher programs may be more appropriate than U.S. in-kind food aid due to local market conditions.
